

Thank you for purchasing an LDC product. Designer concrete is simple to maintain and we're sure that you will enjoy yours for years to come. Concrete will patina beautifully over time, however being a porous handmade product, a little care must be taken to keep the surface clean, undamaged and looking good for years to come. Keeping the sealer in good condition is key.

BASIC RULE OF THUMB: IF IT'S WET, WIPE IT UP

- Wipe up all spills immediately
- Wipe as you go, using a soft damp cloth
- If you encounter stubborn stains, use a mild non-abrasive PH neutral cleaner
- Eco-friendly options are encouraged and always use a clean soft cloth
- Avoid exposure to products with high PH levels, paint strippers, bleach, and nail polish remover
- If exposure occurs rinse immediately with water to neutralize effect, and then follow usual cleansing procedure
- Do not leave moist or wet products directly on concrete for a prolonged period, we advise using coasters or dishes under soap dispensers & plants
- If water marks do occur, water will evaporate after a short period
- Take care to avoid scratching by dragging hard or sharp items across the surface
- Use coasters or felt pads under anything with sharp edges
- Always use a chopping board and do not cut directly onto your concrete top as you may damage the sealer
- You may notice the concrete darken around areas where water and damp items are left on the surface, this is normal and will evaporate naturally, as our sealer is breathable, meaning it allows water vapour to move through the sealer, but should not easily let tannins from staining agents through
- If in doubt, please contact us as soon as practicable
- Water-based, non-emitting penetrating hybrid sealer, ultra-low VOC
- All food, drink and products contain different agents which may stain any surface, please take due care
- Reapplication of sealer is recommended every 5-10 years depending on wear and use

- No stripping is required
- Contact us regarding this maintenance program

***We want you to enjoy the natural beauty that is so characteristic of concrete,
and with a little care, these products can last you a lifetime.***

Please note: Luxcrete Designer Concrete's Care and Maintenance Guide must be read in conjunction with Luxcrete Designer Concrete's Warranty. Warranty is void on products sold as samples and seconds.
